# Ethan Lu

973-997-3240 | ethanlu0929@gmail.com | Savannah, GA | ethanlu.netlify.app | linkedin.com/in/ethan-lu | github.com/elu139

## Education

**Georgia Institute of Technology** Atlanta, GA

*Bachelor of Science in Computer Science (AI and Info Networks Threads), Minor in Economics* *Dec 2027*

- **GPA:** 3.90/4.00
- **Relevant Coursework:** Machine Learning, Data Structures & Algorithms, Probability & Statistics, Linear Algebra, Combinatorics, Databases, Computer Networking, Cognitive Science, Econometric Analysis
- **Organizations:** Product@GT, Data Science@GT, College of Computing TA, CHEFS at Tech, Tech Pottery

## Technical Skills

**Languages**: Python, SQL, Java, R, JavaScript, TypeScript, C, XML, HTML/CSS
**Data**: Pandas, NumPy, Scikit-learn, JAX, Matplotlib, Power BI, Excel, ETL, Forecasting
**ML/AI**: PyTorch, BERT, Transformers, NLP, LangChain, RAG, LLM APIs, Agentic Workflows, MCP
**Engineering**: FastAPI, Django, Node.js, React.js, REST/GraphQL, Git, CI/CD, Docker, AWS, GCP
**Product**: PRD/BRD, A/B Testing, Experiment Design, Usability Testing, Agile, Jira

## Work Experience

**Google** Atlanta, GA

*Product Management Fellow* *Sep 2026 – Present*

- Define 10+ end-to-end user journeys to pilot a strategic product demo for Google Skills roadmapping
- Prototype an AI-powered resume parser feature to generate personalized learning paths for young professionals
- Design a ticket-based learning workflow leveraging Gemini to drive platform stickiness and user retention

**Origami Risk** Atlanta, GA

*Product Implementation Analyst Intern* *May 2026 – Aug 2026*

- Deployed 30 Claude Skills refined via evaluation metrics and confidence scoring, improving Professional Services' workflow efficiency by 33% across client XML forms, business process outlines, and KPI dashboards
- Configured role-based access control (RBAC) architecture using SQL for 350+ users across 10 enterprise clients
- Designed an AI playbook to onboard 8 implementation leads with an AI-powered analytics product at pre-launch

**Center for Teaching and Learning (CTL)** Atlanta, GA

*Undergraduate Research Assistant* *May 2026 – Present*

- Lead alignment sessions with Georgia Tech faculty to implement an NLP analytics dashboard as a course tool
- Develop an agentic workflow to generate personalized actions based on instructor preferences and feedback loops

**Center for 21st Century Universities (C21U)** Atlanta, GA

*Natural Language Processing Engineer* *Jan 2025 – Apr 2026*

- Built a BERT model achieving 90.6% accuracy to classify course forum posts by sentiment and cognitive presence
- Created a data augmentation pipeline that generated 10,000 comments normalized via inverse class weighting
- Developed a multi-class confusion-matrix (F1, $R^2$, precision, accuracy) to evaluate model classification metrics

## Programming Projects

**factr** | *PyTorch, FastAPI, OpenCLIP, LLaVA, AWS Lambda, Hugging Face Transformers* *Nov 2025*

- Built a browser extension that detects Instagram post misinformation via a deterministic multimodal pipeline
- Designed AWS Lambda infrastructure to enable production-ready FastAPI services for multimodal inference

**Premier League Transfer Spending Analysis** | *Python, Pandas, Numpy, Matplotlib, BeautifulSoup* *Dec 2024*

- Scraped and filtered 500 relevant Premier League (PL) transfer records from a 75,000+ entry dataset
- Used linear regression analysis to correlate high-profile spending with PL survival rates among promoted clubs

## Leadership and Community Engagement

**CS 1100 Pathways in Computing Teaching Assistant** *Aug 2026 – Present*

- Lead peer mentorship meetings with 30 students to build computing, networking, and work-life balance skills
- Coordinate interactive workshops on emerging technology, GenAI, and technical interview skills for 550+ students

**CHEFS (Culinary Health & Education for Students) at Tech Vice President** *Jan 2026 – Present*

- Direct on-site operations for 12-15 events per semester ranging from cooking workshops to general body meetings
- Co-developed a website with 200+ active users for facilitating the launch of culinary friend circle program
